BUFFALO BISON TAKE TWIN BILL FROM TORONTO

Seal Rogovin and Pete Appleton Drive the Mounties Chorus

The Associated Press: "Three little doubt that the Buffalo Bison would be higher than their counterparts in the fourth place in the International League standings if their pitching was more consistent."

Three of their soundmen were in fine form yesterday as the Bison swept a doubleheader from the Indians. Toronto Maple Leafs to make it even victories in their last eight starts.

Seal Rogovin and Pete Appleton divided the mound between them in Buffalo's 4-2 win of the opener while Hank Perry caught the Leafs, 6-2 in the final, third game of the series.

The victory enabled the Bison to stretch their lead over the fifth-place Rochester Red Wings to two games. The Wings took a 3-2 beating from the third and fourth games.

Jersey City Giants. Despite their loss, the Giants vaulted second place in favor of Syracuse Chiefs by two percentage points. The Chiefs clipped the Indians, Montreal Royals 10-3, 6-3.

The 4-4 going into the final game of the season, the Chiefs took six runs home and then the 10-3 Montreal Royals rallied in the bottom half to gain the win.

The twin strikes cast Montreal's lead in 5-1-2 games snapped their winning streak at seven.

10,000 View Motorcycle Races At Oshawa Meet

Oshawa, Ont., July 2 (CP)—

Three Hamilton motorcycle-cruised Dominion titles in feature events at the Canadian Motorcyclists' 10,000th championship held here yesterday before 10,000 spectators.

Hamilton's Ted Sturgeon guided his Norton around the treacherously abrupt oval track at Alexander Park to cover five miles in less than six minutes and win the five-mile Canadian cruiser crown. His fellow townsman, Paul Poirier, completed the same distance in 6:10 to capture the five-mile Canadian amateur class.

At Niagara-on-the-Lake, Poirier, lead the way to the final mile in the final heat of the six-mile event.

McCormick, of a Toronto, won the five-mile novice championship, which was halted twice by rain. The novice class went to hospital for treatment of minor injuries, but only one was held overnight.

E. BLACKWELL HEADS PITCHING FOR DYER'S TEAM

Manager of St. Louis Cardinals Picks Seven of Best in the National League

New York, July 2 (AP)—The most anxiously awaited item of the baseball season was announced today by St. Louis Cardinals manager E. V. Rouse when he named E. Blackwell the probable starter in the St. Louis Cardinals' first game at Wrigley Field, Chicago.

With Blackwell heading a seven-man pitching staff, the Cardinals are expected to take the St. Louis Series today which includes seven outfieldsers, eight infielders and three catchers.

The American League team, led by an eight-man mound crew, was announced last night.

Blackwell, the 41-year-old right-hander of the Reds, was joined by such pitching notables as Dwight Gooden, 24, of the St. Louis Cardinals 1948 All-Star team, and the American League champion Boston Red Sox's 25-year-old right-hander, John F. Schmitz.

Mate Apparently Dozing Watchman Tells Hearing

Claims Things Did Not Look Right in the Wheelhouse

By T. C. DUBOIS
(Canadian Press Staff Writer)

Toronto July 3 (CP)—Frank Pihl, a Swedish immigrant of Pelly Road, Ont., testifying at the public inquiry into the sinking of the *Empress* on June 1, claimed 13 minutes, said today he visited the wheelhouse a short time before the ship sank and found the first mate was "apparently dozing" in a chair.

Pihl, who was in the wheelhouse at 11:30 a.m., said he saw the ship's head down in the fog.

European States Invited By Britain To Take Part In Reply To Marshall Plan

No Reference To Russia Ex-Congressman Found Guilty Of Selling Influence

By T. C. DUBOIS
(Canadian Press Staff Writer)

Paris, July 3 (AP)—The French Foreign Office announced today that 23 powers will be invited to a meeting in Paris July 10 to discuss European economic cooperation as outlined in the Marshall program.

The countries invited will include Austria, Turkey, Albania, Elze and all former enemy states except Germany, it was announced. A Foreign Office spokesman said the invitations would be sent out tonight.

The Foreign Ministry announced earlier a British-French decision to invite all European states, with the provision that Russia be excluded.

The communiqué outlined in the European countries to "draw up a European reconstruction program in which the resources and needs of each country will be coordinated, in a manner that shall be the future of European unity will be decided there."

If there are governments which will not co-operate, he declared, "we shall at least have discharged our duty by trying to help them."

However, both Bevin and Molotov said they hoped that any separation of Europe would be temporary and that all European countries eventually would join their program. Bevin emphasized, "we shall work as closely as we can with the United Nations."

In Bevin's speech, the British government said that it was studying the situation in light of the Soviet position and previously would make "their reaction known." However, Bevin speculated that Switzerland would adopt a position of "neutrality" and that the road policy will remain "a governing factor in the Balkans, Czechoslovakia and the Balkans."

French Foreign Minister, Georges Bonnet, said that France, Belgium, the Netherlands, and the United Kingdom had decided to support the Soviet position and that they were "in a country call to the Russian Foreign Minister on the subject of French government."

Bevin said that he probably most of the big Soviet delegation was about to arrive in Soviet planes which took off from the Russian air base at Moscow. The information said Molotov "was in a hurry" to get back to Moscow.

Relative Merits of Steam, Diesel Explained to Club

The relative merits of Diesel and steam power were fully explained to members of the Engineering Club of the City of London at a meeting held at the club on Monday night.

The speaker, Mr. J. H. Jones, who is a member of the club, said that the Diesel engine was a "new invention" and that it was "a very important development in the history of the internal combustion engine."

Mr. Jones said that the Diesel engine was "a very important development in the history of the internal combustion engine" and that it was "a very important development in the history of the internal combustion engine."

The conclusion reached by the club was that the Diesel engine was "a very important development in the history of the internal combustion engine" and that it was "a very important development in the history of the internal combustion engine."

Fourth of July Finds Dodgers Leading National League After Drubbing by Giants

Philadelphia Athletics Move Into Third Place on MacArthur's Win

By JACK MACARTHUR
Fourth of July watching the National League, the Philadelphia Athletics led the home-run derby with the New York Giants.

The Dodgers, clinging to first place with 20 victories, ran into some stiff resistance from the Athletics in the 11-3 Wednesday night. They were knocked by the Giants 11-3.

Apparently MacArthur had a talk with his batting coach and the Athletics had been told to be on guard for the Athletics. They came out with a will to kill and won the game 11-3.

Brooklyn's Jackie Robinson bled the Athletics in the fourth and fifth innings. The Athletics won the game 11-3.

HAMLIN GIVEN 11 TO 0 SHUTOUT OVER ROCHESTER

Staten Island of Thrilling Start for Last Celebration of Birthday

By (The Associated Press)
The traditional July 4 dividend was the Montreal Royals from the International League, apparently a show-up for another pennant.

Starting slowly while Brooklyn Dodgers defeated Philadelphia Athletics in their farm system. Clay Hopper, Royals overtook Jersey City Giants, but only leaders and now have opened up a nine-game gap over the runner-up Syracuse Chiefs.

Twenty extra hits hitting on the part of Dutch Woyt, Roy Campbell and Dick Whitman enabled the Royals to subdue Buffalo last night 11-0 behind the star-pitching of Jack Van Cuy.

The veteran Jack Hamlin out-pitched last night's pitcher, throwing out 11-0. The Royals won the game 11-0.

WIN A \$5.00 PRIZE And Get Acquainted with Your Local Businessmen

Here's something new and different. The merchants advertising on this page are co-operating in a contest which gives us an added opportunity of winning a weekly prize of \$5.00. Here's how you win: Each week in one of the advertisements a word will be "unscrambled." Read the ad, unscramble the word, and send it with the name of the advertiser in whom ad. It appeared in the "Contest Edition," Outsize Intelligence, Box 190, Belleville. All answers must be in by the THURSDAY following publication, and winner will be announced the next week in the Business Directory. The winner will be drawn from among the correct answers, and a cheque for \$5.00 mailed promptly. No member of the staff of the Outsize Intelligence or their families are eligible for a prize.

THE WINNER IN LAST WEEK'S DIRECTORY CONTEST IS:

MRS. J. A. CADDICK

"21 FORTON ST., BELLEVILLE"

Dodgers Will Meet Yankees in World Series if Old July 4th Myth is Believable

Both Teams on Top of Their Respective Leagues and Game Fixing.

By JACK MANDY
(Associated Press Staff Writer)
Brooklyn will play the Yankees in the World Series according to the classic myth which says the July 4th event-

ing standings as an infallible guide to the outcome. The myth for it is that the National League is composed of the four best teams in the last 15 years but it worked out this is the sixth time in 15 years that the Dodgers have led the parade at this time.

FOR SALE

ONE OF THE FINEST SEMI-BUNGALOWS ON THE EAST SIDE. Modern kitchen, built-in appliances, tiled floor, reception hall, living room with fireplace and bay window, dining room, two bedrooms, two baths, and a full basement. The house is in excellent condition and is a real bargain. Call for more information. 1000 N. 10th St. Phone 1000.

Felix Mackiewicz Hammered Home Run, One With Head Bashed

(By The Associated Press)
The Philadelphia Phillies' Felix Mackiewicz, who has been overlooked since an important part of his career, was the hero of a 10-game International League victory over the Chicago Cubs.

Mackiewicz hammered three home runs in the first inning, including a grand slam, to lead the Phillies to a 10-0 victory over the Cubs.

Two in the first game, Mackiewicz hit a home run in the second game, and a third in the third game.

Life Flooding Back Into Marseille Waterfront

By STUART UNDERHILL,
Canadian Press Staff Writer

Marseille, July 1. (CP)—Life is flooding back into the waterfront of Marseille, France's second largest city, and the extent of the Mediterranean seaport's revival is estimated at 10 per cent destroyed by evacuating German troops in 1944.

Marseille has the gaily broadened of all big seaports, and a large dose of Gallic police added. Except for a few scorching hours in late afternoon, when shutters close to keep out the sun and flower vendors and fatives close over their wares, it seems always on the go.

The sidewalks are packed with strollers, tourists and vendors—all sorts. There are a dozen different uniforms, 50 different accents and men and women of all shapes, shades and sizes.

Marseillais know its backstreet snuffles and nearly every day the papers report "une rue" between hot-tempered sailors and the toughest, shoddy characters. But on the whole the Marseillais seem happy folk, for the Marseillaise

about their country's future than residents of other parts of France.

"It is safe to say that it took 180 years to create the port of Marseille as it stood before the war," said an official of the ports Chamber of Commerce.

"It took the Germans two years to reduce the effort, to nothing. But in three years, a new port has arisen."

Twisted timework and mounds of rubble still bear witness of the thoroughness of German demolition, but new buildings have been built on the remains of the old and new shops have been hurriedly erected to shelter goods pouring in, especially from French possessions in Africa.

STOCKS BY SAUVAGES

Bacon in Fire Scarce and Dear Says Writer

By MICHAEL ROONEY
Pittsburgh, July 1. (AP)—Doubtless, July 1 (CP)—Hog-raising in Erie finds bacon scarce and dear, says Michael Rooney, a writer who has been in the streets of Erie since the war.

He said the bacon factories are wondering how long they will have their jobs.

There are signs of the decline of Erie's bacon industry. After years of price deflation, feed shortage during the war brought a 50-per-cent cut in the country's hog population.

In 1946 farmers produced 1,227,000 pigs for market. In the year which ended last April the number had fallen to 860,000 and prices had more than tripled.

The current complaint is that there are plenty of people who will pay more than they are able to, to cure the meat illegally—and sell it primarily at fantastic prices; and that pork butchers, with lower overhead, are using half the pigs in the country.

Stiff Necks, Goggle Eyes Order of Day

VEL works magic! CUTS DISHWASHING TIME 3 WAYS

VEL penetrates, cuts grease, loosens dirt faster. VEL eliminates wiping... makes dishes, glasses gleam... no sticky film to wipe away.

No dishpan ring with VEL... no soap scum to scour away.

JUST put a few teaspoonfuls of VEL in your dishpan (about half as much as soap). Add water. VEL gives the water amazing new cleaning power that lasts long after you've completely done your dishwashing. Your dishes are clean, glass sparkling and shiny without the touch of a towel.

VEL keeps stockings sheerer, underwear fresher, underwear fresher.

Dispute Stoppages Greater in 1946 In Five Countries

Montreal, July 1 (CP)—Work stoppages arising out of industrial disputes in 1946 exceeded the 1945 total in at least four of the five countries surveyed in an international survey of industrial statistics for the two years made available here today.

The countries showing an increase in the number of work stoppages were Great Britain, Canada, Argentina, Ireland and Netherlands. In Great Britain, Finland and New Zealand there were fewer stoppages in 1946 than in 1945, and in the ninth country, the United States, Czechoslovakia, no strikes or lockouts were reported.

In the United States, the total number of work stoppages in 1946 was a new high of 4,360, compared with 3,700 in 1945. This compares with 4,700 stoppages in 1945. In Canada, 1,400 workers were directly involved in the 1946 stoppages—a larger number than in any previous year on record and a jump of more than 1,000,000 over 1945.

In Canada, the number of stoppages in 1946 was 28 per cent more than in 1945. In the United States, an increase of 31 over 1945 was reported. In Great Britain, 15,474 workers were involved in 1946, compared with 14,000 in 1945.

More than 4,000,000 working hours were lost in 1946, more than three times the figures for 1945. In the United States, the number of stoppages was 1,400, compared with 1,400 in 1945.

**GOODS APLENTY
BUT NO BUYERS
S.A. PARADOX**

By S. MIRWIS
(Canadian Press Correspondent)

Johannesburg, July 10. (CP)—A paradoxical situation now to be found in the commercial world of South Africa is that shops and warehouses throughout the country are better stocked than they have been for years—but the public have stopped buying.

The position has never been more confused, and tradesmen say that they have never known such conditions. The country is saturated with goods selling at a loss while in England and the United States factory prices have not yet reached their limit.

Some of the big wholesale firms have reached such a bursting point from imports that they will not give orders for a few hundred pounds' to overseas factor. In many instances, stocks have piled up to such an extent that quantities of goods of all descriptions are going to auctioneers to be sold at any price.

This, importers say, has been caused by reckless buying which characterized the immediate post-war period. Buyers went off their heads, giving huge orders to America and England, and goods went so fast at first that the "galloping buying" continued. No one

"The result of this," said one manufacturer's representative, "is that everyone is unloading goods at any price. Where business was being done by telephone 38 months ago and buyers were crying out for everything they could get, it is a battle to sell

"I'll have my goods in the street; if another shipment comes

The position is so bad that cancellations of orders to indent agents and from indent agents to owners of factories are large, but often retailers are unable to prevent shipment of landed orders. Kauchuk hit are newly-established businesses with small capital and small experience, and one of these is today dumping goods at 25 per cent below landed cost.

Articles which a year ago were selling at high prices in the European market in the exports are already being earmarked for the native trade.

The position is further com-

While shops are selling at reduced prices all over the country, the indication that the reduction will be lasting. Some of it is due to dumping to make room for superior articles now leaving factories. American prices are easing up, but the prices of foreign goods are far below American prices, and are likely to stay in the coming month.

Wholesalers and retailers now are looking to Christmas for a revival of trade. If it does not come then it may not come for 18 months, they think.

5,000 Try to Climb Into First Train

Toronto, July 10 (CP)—Five thousand children with thoughts of free ice cream, pop, games, balloons, candy and pony rides, tried the impossible here yesterday. They all attempted to cram into the first car—one of 10 assigned to the task—to get to Toronto's west end High Park where the aforementioned bonanza awaited them.

The late Thomas Foster, a lover of children and picnics, left \$100,000 in his will, the interest on which was to provide free ice cream for 10,000 children, and 5,000 of Toronto's youngest set were ready to cash in on it.

After a squad of police used diplomacy, cajolery and a lot of energy, the vast of the kids were

This delightful pictorial study shows Frenchay Common, Gloucestershire, Eng., where great cricketers like Allan, Hobbs and Hammond have played, and is reputed to be the most picturesque village green in the West of England. For well over a century the villagers have watched their favorite teams playing in front of the parish church, in a scene such as this on Saturday afternoon.

Story of Concentration Camp Bear

(By Marcia Wine in The Chicago Tribune)

Dr. Josef Charyal, professor of medicine and director of the Third Medical Clinic in Prague, who is in this country to catch up with medical advances America made during the war, spoke at the University of Chicago a short time ago.

He told this story. One night the loud-speaker at Buchenwald demanded that any prisoner who was familiar with wild animal report immediately.

One Czech, whose qualification was that he had hunted rabbits

reported out of boredom and was taken to a zoo near Buchenwald. Here a bear cub had just been born, and the cub had been named "Yellow Czech" by its mother. The Czech was commanded to restore the cub to health.

Bringing it back to camp, he sought out a country doctor, "Yellow Czech." The doctor demanded a fee of five and a corncob pipe. The man kept and promptly switched up the stomach.

The next morning, when the prisoners were lined up to be counted and assigned to work details, the rabbit hunter and the doctor appeared carrying the cub. The doctor said to the guard, "The

Experienced Farm Labor at Premium In This District

With the commencement of the haymaking season, experienced farm labor is at a definite premium in the Bay of Quinte district.

Mr. H. Reed, manager of the Remounting Office at Belleville, stating there is a distinct shortage of this type of labor.

Wages for experienced farm laborers range up to \$100 per month with board and lodging, although the general wage for day laborers is between \$75 to \$70 per month and up to \$70 to \$75 per month for experienced farm workers immediately in the farm district areas. These rates are not available, stated Mr. Reed, "what labor there is available just does not seem to be involved in farm work as long as they can get in cents per hour from construction firms and other enterprises."

With good crop prospects in Western Canada, harvesters from that area are being recruited to the Ontario district in great numbers. The result is that only 11 such workers are available in the Belleville office and were immediately placed. Several others are in the way of being placed but are not yet available.

Mr. Reed stated that the situation is not as serious as it appears to be. He stated that the situation is not as serious as it appears to be. He stated that the situation is not as serious as it appears to be.

BELLEVILLE PAYS TRIBUTE TO HER

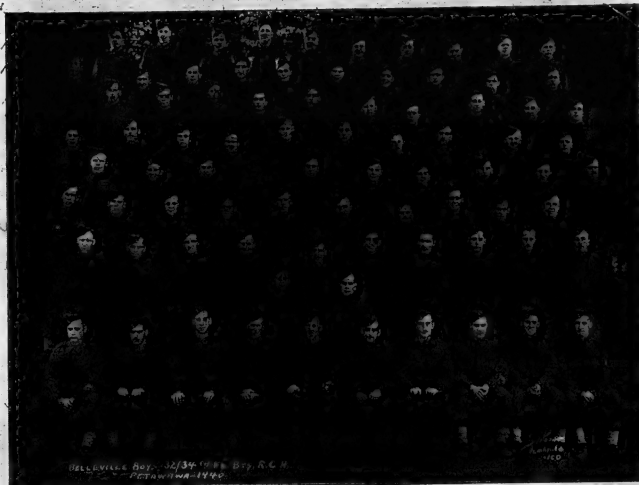

Upper Left — The last parade of the gallant First Battalion Hastings and Prince Edward Regiment of the Memorial First Canadian Division regarded as one of the finest fighting units in the Canadian Army. The unit was pictured as it formed up outside the Canadian National Station here on its arrival at its "home port." Later it marched through wildly cheering crowds, which lined the main thoroughfares past a striking base where Brigadier Howard Graham, former commanding officer of the unit, took the salute. The troops, with a large contingent of their comrades who preceded them home, were given a civic reception and entertainment at the Armouries.

Lower Right — The last march-past of the Hastings and Prince Edward Regiment as it swung by the recruiting base on Pinedale Street with Brigadier Howard Graham, now Chief of the Canadian General Staff in England, taking the salute. Seen with Brigadier Graham is Major Nickle who brought the regiment from England to its point of dismissal here. Col. Hume, of Owen Sound, former commanding officer of the regiment; Lieut.-Col. J. J. Kennedy, D.S.O., of Kingston; Lieut.-Col. W. A. Daven, commanding officer, 8th Battalion; Chief of Police Walter Probert of Belleville and other military and civic dignitaries.

Upper Right — The last farewell of the Hastings and Prince Edward Regiment's First Battalion to its regimental colors. Above is seen the dramatic moment staged at the C.N.R. Station when officers of the First Battalion handed over the colors to officers of the Second (Reserve) Battalion under the command of Lieut.-Col. William A. Daven, of Wellington, Ont. In the background is seen the First Battalion, standing rigidly at attention as the colors are formally accepted by the police party of the reserve unit.

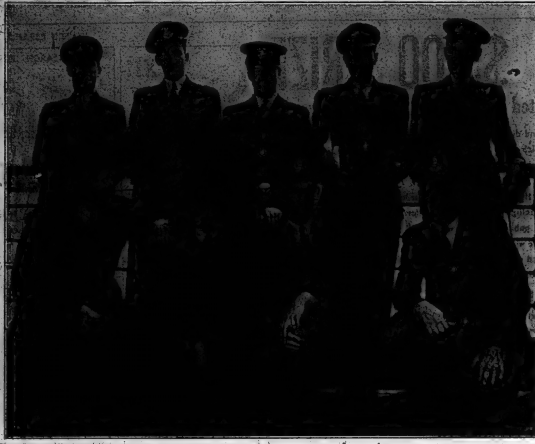

Centre — Here are the gallant lads and officers of the 22/74th Field Battery, Royal Canadian Artillery, one of the first units of the city to leave for the front. The 22/74th served with gallant distinction in many hotspots of war and many of the gallant boys pictured above now lie in the bloody battle of Europe. Lieut.-Col. T. Y. Wills, now city magistrate, commanded the unit.

Lower Right — The famous battle flag of the Hastings and Prince Edward Regiment which saw distinguished service with the "Rightmost Unit" overseas is pictured above being held by the famous Sergeant Ponsford. He is seen with his commanding officer smiling over the incoming while a number of the Hasty Paws, wearing broad grins, can be seen in the background. Behind the Pullman porter bows his head in respect. Serg. Ponsford, an Australian, was one of the most popular non-commissioned officers in the unit and it was his proud boast that he never wore socks during his long distinguished career in the battlefields of Europe.

HEROIC LIVING AND HER GLORIOUS DEAD

Typical of Belleville men in this group of R.C.A.F. officers seen at the upper left. Included in this picture, third from the left in the first row, is Squadron leader Joe Foley, Wellington, Ont.

The House Progl stood sturdily behind the lads at the front. Seen in the upper right are the proud faces of a group of Canadian National Railway workers who went over the top in every Victory Loan.

In the centre is General Sir Bernard Montgomery, conqueror of Rommel the Desert Fox and who led the Canadian and British armies to victory in France. Monty had a warm spot in his heart for the Canadian troops and he was high in his praise of their valor and action in the bloody fields of Italy, France, Germany and Holland.

One of Shannonville's war heroes is seen in the lower centre. He is Private E. Burns, first of the "Hasty Pies" seen being decorated with the Military Medal by General Montgomery. Burns, who was later killed in action, performed an heroic exploit when he held off German tanks almost single-handed.

A Belleville member of the crew of the Canadian destroyer "Assiniboine" is pictured in the second left picture. It was the gallant men of the distant service who braved the submarine-infested waters of the seven seas to see that their comrades of the army and air force arrived at their destination safely. It has been stated that Belleville stands second in Canada in the per capita rate of naval enlistments.

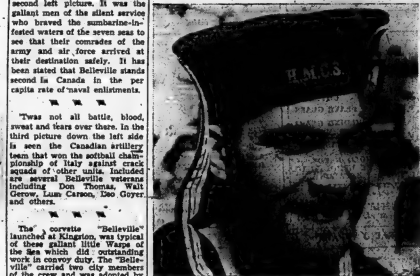

"Twas not all battle, blood, sweat and tears over there. In the third picture down the left side is seen the Canadian artillery team that won the softball championship of Italy against crack squads of other units. Included are several Belleville veterans including Don Thomas, Walt Grewe, Sam Carson, Leo Goyer and others.

The corvette "Belleville" launched at Kingston, was traipse of these gallant little Wasps of the sea which did constant work in convoy duty. The "Belleville" carried two city members of the crew and was adopted by the residents of this community to comfort for the boys.

Another young sea-dog wearing the popular beard that graces the chin of many naval men is seen in the second picture on the right.

The boys did not wear the comfortable battle dress when they joined the colors in 1939. In the third picture on the right side is seen a platoon of the Hasty Pies wearing the uniforms their dads wore in World War I. The picture includes several Pictou and Belleville members of the First Battalion taken while training in Prince Edward County.

One of the fighting Fitzgibbon family of Belleville is pictured in the third picture on the right. This "Fitz" was a sea dog and is seen resting from the strenuous exercise of pulling an oar in a cutter.

With Canada's Naturalists

(By The Canadian Press)

Summer visitors to Canada's northern lakes are always impressed by the long, loud laugh

of the loon. These handsome divers, larger than ducks, and whose plumage makes a striking pattern of black and white, laugh longest and loudest. It seems, in the stillness of the night, often their weird cries are answered from a distance.

In the rich mythology of the North American Indians there is no more fascinating story than the one explaining the laughter of the loon. Ages ago, it is said, one of the greatest and kindest among the great spirits of the West gave life to the forest and his name was Glooscap. All the birds, fishes and land animals were beloved of Glooscap, and under his rule lived happily together without fear. But when Glooscap departed into the shadow world and disappeared among men and animals, the laughter of the loon lost its merry note and became agonized as they searched for the lost ruler of the wilderness. One way of counting — year after year — was the number of chickens before they are hatched

is to x-ray the incubating eggs. This was done recently by an inquisitive x-ray technician who is a keen amateur naturalist. Counting, however, was not the child's motive.

"He wanted to study the skeletal development of the embryo chick during the 21 days of incubation and arranged for the removal of an egg from a hatchery incubator. It was not until the 14th day that the fragile, dry bones were visible to the x-rays. And the final four days within the shell for the hatchlings were days of tremendous hurry in the growth of the skeleton, the process each 24 hours being striking. In almost all the incubating eggs the x-ray lines resembling the spines in a miniature barbed wire fence were caused by the symmetrical shrinkage of the inner membrane of the egg as the moisture content was gradually absorbed.

Spontaneously, nature occasionally produces new varieties in the vegetable realm. They are called "sports" or "mutations" and appear as if by magic. Golden-banana corn, the Macintosh Red apple, are examples. In recent years such mutations have been brought forth deliberately by irradiation and the drug colchicine.

Dies Committee Popular As Soon as War Started

By CLYDE BLACKBURN (Canadian Press Staff Writer)
Washington, July 13 (CP)—Life has been more hard and uncertain for American Reds and planks and vague rumblings from Southern Texas war forecast that the things will be worse for the fellow travelers.
Martin Dies, former Congressman for Texas Congressional district No. 1, founder and chairman of the House of Representatives committee on un-American activities, (Dies Committee) is reported heading off the political wilderness.

\$250,000 Damage To Swift Plant During the Night

Several Other Buildings Struck in Prince Edward

Three farms were burned in Prince Edward county and damage estimated at upwards of \$250,000, reported at the Swift Canadian Company plant at Belleville when Monday night a severe electrical storm swept through the Bay of Quinte district.

In addition many cottages and houses were damaged. At Milford were severely damaged by lightning, although the building failed to catch fire.

At Pigeon Lake, a house was damaged by fire which swept through the roof of the house and destroyed the roof of the house. The fire was caused by lightning striking the roof of the house.

Hope for Success In Anglo-Russ Trade Talks Seen

London, July 15 (Reuters)—Hopes here yesterday of a speedy conclusion of the Anglo-Russian trade negotiations following "happier reports" from the press here had been taking too pessimistic a view for the last day.

Authoritative circles agreed that it was unable to agree on a number of points. The agreement was ready for signature, but the Russians were not ready to sign it.

Despite the absence of hopeful news, it was widely expected that the British delegation had not been able to reach an agreement on the request for revision of their terms of trade. The agreement was ready for signature, but the Russians were not ready to sign it.

Ontario Crops Progressing Well But Farmers Face Big Labor Problem

Toronto, July 15 (CP)—Hay- and grain crops in Ontario are progressing well, but farmers are facing a big labor problem. The weather is good, and the crops are growing well. However, the farmers are having trouble finding enough labor to harvest the crops.

Conservatives Pour A Flood of Criticism On Legislation And Many Motions Expected

By GEORGE KITCHEN (Canadian Press Staff Writer)

Ottawa, July 15 (CP)—One great debate, perhaps rivaling all others in this Parliament, is in the air, between the Commons and a proposition which would be put to the House of Commons.

The debate, scheduled for re-consideration today, is the first of a series of debates on the proposed legislation. The debate is expected to be a long one, and many motions are expected to be put forward.

British Pay In Any Currency, Mainly Dollars

LONDON, July 15 (AP)—British pay in any currency, including dollars, is being considered by the government. The government is considering the possibility of paying British troops in dollars, rather than in pounds.

Ontario Crops Progressing Well But Farmers Face Big Labor Problem

Toronto, July 15 (CP)—Hay- and grain crops in Ontario are progressing well, but farmers are facing a big labor problem. The weather is good, and the crops are growing well. However, the farmers are having trouble finding enough labor to harvest the crops.

The bill later was given third and final reading as the chamber cleared the order paper of all but the contentious redistribution legislation and the seasonal estimates, now completed except for a half-dozen departments. The last of the Fishery Department estimates were passed and study was opened on appropriations for the labor department.

It was then that the opposition claimed that the Progressive Conservative member quoted a newspaper report which said that King had not been altogether satisfied with the recommendations of the committee which drafted the redistribution.

The Prime Minister charged Mr. Macdonnell with intimating that he had been in the changing some recommendations.

Fall of Illusions

Solon Low, Social Credit leader,

Also given final approval were two government bills to amend the Criminal Code to provide summary pardons for a specified number of servicemen under the Militia Act, one batch of 348 divorce bills and several minor private bills.

The House disposed of a number of measures, including one to adjust outstanding loans to the four western provinces for relief from drought damage, a reconstruction-riden 1930s and another benefiting employees of the Hudson's Bay Co., and a bill to amend the Federal Labor Jurisdiction, Canada Land Service, Coastline Lands and

also, while expressing gratitude to the speaker, he said that his members remained unchanged, asserted the bill was "full of integrity," and would be a conservative party and called for more government statement in law-making.

John Diefenbaker (PC—Lewiston) asked the speaker if he would be allowed, appealed to Mr. King to ask the speaker to tell Mr. King had done so the late Prime Minister Bennett in the 1932 re-election campaign, and to make changes in his constituency.

In the radio debate, T. L. Church (PC—Toronto Harbour Centre) said he would be defeated on a vocal vote, to give

Mr. Bracken described the granting of the bill passed to the CBC as a "hidden subsidy" which would "enable the government to use the CBC as a tool to attack the CBC should carry out its own weight."

HORSE SENSE BRIDGE

By SAM GORDON THE KIDDER

You may not believe in luck. It may seem beneath your dignity to admit there is such a thing. But even in a scientific game like bridge there are unaccountable streaks of good and ill fortune.

When breaks are going against you, a chain of mishaps seem to take a chance for the better. By a variety of plays that you would have a tough time devising some players find this is most fortunate.

When luck is with you, almost anything will do. In many reasons it is your favor. At such times, many players crowd their chance to the extreme limit. Whether or not this is superstition, they do it.

We may talk largely of the luck of the cards. We may talk of the luck of the cards. We may talk of the luck of the cards. We may talk of the luck of the cards.

EVIDENCE GIVEN

(Continued from Page 1)

Mr. Fleming said "abundant evidence" and information had been discovered in the V.I.A. administration and it should be removed.

Mr. Mackenzie: "It's been removed."

Mr. Fleming: "It hasn't been removed yet." Then Mackenzie said "I have been told that the committee had 'removed' Gordon Murray, V.I.A. director, for his evidence."

Mr. Fleming said he had been "outlet" hounded, high-handed and he didn't know why they might expect a police official to have the veterans' wants Ministry in Act.

Mr. Fleming said that if no Royal Commission were appointed, the minister should give the situation his close personal attention. It should be decided whether Mr. Mackenzie should be allowed to continue in the regular stage.

Steps should be taken to bring defectors and conscripts to book.

Capt. Walter Thacker, parliamentary secretary to the minister, said that the final cost of the Darns bill would be \$10,000 a piece but that had been the worst of Mr. Mackenzie's arguments anywhere.

Mr. Fleming's suggestion that the Darns house could have been built for \$200,000 a piece, the minister said that the final cost of the Darns bill would be \$10,000 a piece but that had been the worst of Mr. Mackenzie's arguments anywhere.

GOVT. SUSTAINED

(Continued from page 1)

The minister said the Federal government had not been "formally consulted" in the Ontario project. Any province or agency was quite welcome to sponsor Canada but to bring Irish immigrants to Canada was not an issue involved with a transportation agreement with an aircraft Air Line and the flight could lead in Canada. The Commons also gave United Kingdom and raised the cost of the government bill redefining Canada membership from 45 to 250 members, effective at the next general election.

But in the Senate the Resolution Bill met with considerable opposition though it finally was passed through all stages without division. Senator John T. Haig, Progressive Conservative leader, started it by saying it might well

Lovely Girls Who Compete Friday Night for 'Miss Eastern Ontario' Title at Armouries

Tomorrow night at the Arena, during the "Treasure Trail" and "Lucky Listening" broadcasts, entrants from all parts of the province will compete for the title "Miss Eastern Ontario." Winner will be crowned "Miss Canada" in Hamilton in August. Among the entrants are the four finalists shown. From left: Margaret Vanech, 18, of Kitchener, who is entering as "Miss Kitchener"; Jill Dunlop, 17, of Toronto; Cynthia McDermott, 16, of Brantford, entered as "Miss Brantford"; and Patricia Jones, 17, of Earl St., Belleville, who was chosen "Queen of the Quince" at a Lions Club contest in Trenton.

be termed a "Gerrymander Bill," a remark which brought Senator Thomas V. (L-Quebec), Senator Norman Lamont (L-Quebec), Senator Gary Turgeon (L-British Columbia) and others to his feet.

The criticising role of the day came after more than two hours debate on a motion moved by Percy Weir (COP-McNair) that the government give "immediate" consideration to increased pension allowances for veterans and war widows.

Prime Minister Clark said that because the C.C.F.'s amendment came on a government motion to allow consideration of supply, any vote against the government would mean that it had lost the confidence of the House. Any time the government was successfully driven across to supply it must go to the country.

Mr. Clark said "we shall all agree that the amendment con-

tinued to be considered with sympathy and that the government is prepared to consider what is requested." But he added decisively, it would be considered in the proper time and the proper place. "I am not going to be driven into any position in year of a vote."

If the C.C.F. wanted to try and embarrass the government by forcing a vote, they could do so.

Mr. J. Caldwell, C.C.F. leader replied that that forced the Minister's challenge.

Ask for Free Vote.

The C.C.F. members, with backing of speakers from the Progressive Conservative and Social Credit benches, asked a free vote — without consideration of party lines — but the Prime Minister said any vote of any kind which rejected the government to be a rebuff and the signal for an election.

Referring to a parallel situation at the close of the last session when the opposition had asked the government to consider the results of the milk subsidy, Mr. Clark said "there was done to be done."

It had been done," in that instance, Mr. Clark said, "because it was in Europe and Reconstruction Finance Board had called it free vote in which the government, in effect, had been defeated, but had simply gone into supply."

Veterans Minister MacKenzie in a departmental statement when he estimates more up said Canada's pension liability from two world wars was increasing at the rate of \$20,000 a month through other expenses of the department were mostly decreasing, signifying that certain services and payments related to the de-

mobilization were "very nearly completed."

Though veterans affairs estimates generally were down \$22,000,000 from last fiscal year, there was a \$4,000,000 increase in this year's pension appropriation of \$60,700,000 and this was based on the belief that the monthly rate of pension increase would be maintained throughout the 1967-68 fiscal year.

Expressed Three Decades

Mr. MacKenzie told the members of three decades' experience he would suggest the appointment of three directors: Dr. J. G. MacKenzie (PC-Lanark) and Dr. R. M. McGarry (L-Quebec) (Richmond) and perhaps a member from the C.C.F. group as an interim committee to investigate complaints of veterans that their pension rights were being ignored and particularly cases where serious charges had been levelled at departmental officials.

In the pension debate, the minister touched off the touchy veteran allowance subject at the earlier critical vote and said that \$1,300 such allowances were in effect at May 31 this year, it

Graziano Grabs Middleweight Championship from Tony Zale In Chicago by TKO in Sixth

Battlers Champion to Fight Helpman After Being Nearly Out Himself

By CHARLES DUNKLEY

Chicago, July 17 (AP)—Rocky Graziano, tough, bush-haired mauler from New York, last night reached the top of the middleweight boxing heap when he belatedly won the Tony Zale to a split decision in Chicago.

The Rock, fighting to redeem himself from the stigma of second place in his native state, was declared winner on a technical knockout two minutes and 10 seconds after the start of the sixth round. The fight came to the end stage that the 35-year-old Zale had come from behind to knock out his opponent in the eighth round of his eighth fight against a younger, better equipped fighter in New York last Sept. 27.

The severely fought battle, scheduled for 10 rounds, was won by a technical knockout in the sixth round of 184-157 which established an all-time record for pay by paying \$25,000 to the winner. The fight was won by Jimmy MacIntyre and Jack Delaney in heavyweights, in New York 30 years ago.

Zale said about \$130,000 for his and Graziano's fight, a side contract for 40 per cent of the net gate and the challenger's per cent.

Up to the end of the fifth round, two judges and referee both had voted Zale leading on points by a safe margin for carrying the attack to the challenger. Zale had gained a cut over Graziano's left eye, his right eye was rapidly closing and his mouth was bleeding and out.

By Referee Count Starts

In the third round Zale, who was leading 130-124-14 for the challenger, had all but finished Graziano. A short jab to the chin had brought Graziano but he was up before the referee started.

In the fourth, Graziano drove a terrific right to Zale's body—a devastating punch that started Zale to his finish. He started to wilt in the fifth, his tempo went down.

Then came the dramatic sixth and final. Zale hit rubber to the attack and pinned the challenger.

Sports Roundup

By NICHOL PULLERTON, JR.

New York, July 17 (AP)—The out footed despite his occasional misadventures on the coaching lines, Coach J. V. Francis, when he was named as the new coach of the New York Yankees, said he was "not a coach."

It will be a hard act to follow, but Francis, who is 57, said he was "not a coach."

"When we get some good pitchers, we'll get some good batters," Francis said. "And, of course, you need a good manager."

Daniel Coatsworth

Alan Lawler's spinning performance for the Texas Rangers, which resulted in Texas losing his 50-yard touchdown run, was a real disappointment.

Meanwhile, the British boxing team, which is expected to arrive in London tomorrow, will be the only team to decide the three-pronged prize.

1. Does Martin get the title on a technical knockout?

2. Does Palmer still hold the title?

3. Is the title vacant?

Charles Donnelly, secretary of the B.B.C.C. as usual in the case of any controversy, said only that any decision must be made by the B.B.C.C. members.

SYRACUSE CHIEFS

JEFFERSON GIANTS

COME UP FAST

Montreal had 12-game lead but then Tom Tramm Playing Grand Ball

By THE Associated Press

Shortly before the Syracuse Chiefs and Jersey City Little Giants are moving up in the unsupporting International League following Montreal.

Only a week ago the well-stocked Royals were enjoying a lead of over a dozen games over the Chiefs and the rest of the league was talking of pushing the pennant, but today, thanks to a five-game losing streak by Montreal and some fine play by the Chiefs and the Little Giants, the Royals lead the Chiefs by only seven games and the Little Giants by five.

The Chiefs made it five in a row over Baltimore last night when they whipped them 11-3 behind the fourth pitching of Howard Fin. The Chiefs hit three Baltimore pitchers for 11 hits, including their season's 88th home run.

Finer City pitcher had made late out of the box with a five-run first inning and went on to whip the New York Bears 7-3.

Only nine hits to gain the decisive victory, but the Chiefs' lead and the triple and two hits led to the victory.

A scheduled doubleheader between Montreal and Rochester was rained out and Buffalo and Toronto were not scheduled.

Underground Appeals to UN To Intervene for Immigrants

Legal Jewish immigrant ship was captured by the Royal Navy off the coast of Palestine today, British authorities announced. The ship, the *Altalena*, was bound for Haifa, to Emil Sandström, chairman of the United Nations Commission now in Palestine investigating the problem of disturbed conditions in the Holy Land. The commission is scheduled to leave for Lebanon Sunday.

Cheese is Sold F.O.B. Factory Board Ruling

A new deal of distinction was made to the freight and trucking rates last week when the Belleville Cheese Board has decided that the price should be sold f.o.b. factory, rather than at the price of white cheese.

One spokesman said that the cost of shipping and handling should be added to the price of the cheese. The price of the cheese is now sold at the price of white cheese, but the cost of shipping and handling is added to the price of the cheese. The price of the cheese is now sold at the price of white cheese, but the cost of shipping and handling is added to the price of the cheese.

Mr. McCreey remarked that the Board of Transport Commissioners had been authorized for the purpose of establishing a new rate of freight, higher than the present one. At present the rate is 10¢ per hundred pounds for the first 100 miles, and 5¢ per hundred pounds for the next 100 miles.

Mr. McCreey continued by saying that the cheese boards in the United States have been authorized to set their own rates. The price of the cheese is now sold at the price of white cheese, but the cost of shipping and handling is added to the price of the cheese.

MAKING THANKS

The Belleville Veterans' Day Committee wish to express sincere thanks to all who in any way assisted in making Veterans' Day the huge success that it was.

- The Belleville Veterans of All Wars for turning out in such large numbers.
- The Officer Commanding the Royal Canadian Regiment and all ranks of "G" Company and the band of that Regiment.
- The Officer Commanding No. 1 R.C.A.F. Air Command, Trenton, and all ranks of the R.C.A.F. Band.
- The C. N. R. Veterans from Toronto.
- All ranks of the R.C.A.F. Cadet Corps (Trenton Air Station).
- All ranks of the Belleville Sea Cadet Corps.
- All members of the Municipal Band, The Salvation Army Band, and the Belleville Klites Band.
- The Kiwanis for the distribution of tickets.
- The Kinsmen Club who organized and ran the Children's Picnic.
- The Y's Men's Club for decorating the Grand Stand.
- All who assisted with the canteen.
- The Women's Auxiliary of the Canadian Legion, Belleville, and the Women's Auxiliary of the Army, Navy and Airforce Association of Belleville, for the banquet.
- The Half-Way Club for operating the Canteen at the Dance.
- The Officer Commanding and members of Officers and Sergeants' Mess of the Argyll-Light Infantry for entertaining so many visitors.

"With my nose to the grindstone recently, my ear has not been to the ground. So, I did not realize how fast the popularity of Horse Sense bridge has been growing. Yours is a shameless brag."

All of the previous attendance records have been broken during my current lecture tour. Decidedly a better and more confident game of bridge is being played by those with whom I am in contact.

Time was when a Horse Sense player in these cities would meet a group with meek apology. Now a cumbersome player joins a club with the feeling of being like a fish out of water.

After the lecture, I invite any members of the audience to try

1 C	2 H
3 C	3 H
3 S	4 C
4 NT	5 NT
7 C	Pass

To bid four no-trump, south admits seeing 12 or more tricks in an agreed trump suit, two aces and a king or better. Five no-trump is Kibitzer convention for showing one ace and three kings. Such players need no more lessons from me. What they need is competition.

By BOB THOMAS
Hollywood, July 18 (AP)—One of the strangest deals involving a contract player has been arranged by William Powell who now plans to spend the next two months away from his home in L.G.N. Now enacting "The Senator" and "Indiscreet" at Universal International, he will return here this winter for "Mr. Peabody and the Mermaid," rest for six months, then return to M.G.M. for two more films.

Butch Jenkins is surprising everybody by being the model on the set of "Vigilante." Unlike his previous pictures, on this one he has been the soul of sweetness and has kept his dressing room swept and neat, for which he receives \$1 extra per week on his current allowance of \$3.

40th Anniversary Of Wedding Is Celebrated

Ravens, July 15.—On the occasion of their fortieth wedding anniversary, Mr. and Mrs. James Warren, of Barab, were "at home" to members of the family, who were invited to the house by a banquet of delicious refreshments. A beautifully decorated dining table, with a centerpiece of flowers, graced the central table, when at one o'clock p.m., an appetizing dinner was served, after which the guests of honor were presented with a large number of lovely

gifts. They were also the recipients of several messages and cards of congratulatory from the family were taken as mementoes of the happy occasion.

The guests included Mr. and Mrs. Wm. Warren, of Kingston, Mr. and Mrs. Albert Warren, of Barab, Mr. and Mrs. Walter Warren, with Allyn and Douglas, of Barab, Mr. and Mrs. Edwin Warren, with Wendy, of Barab, and Mrs. Ellen, Mr. and Mrs. W. W. Johnson, of Barab.

On Tuesday evening Mr. and Mrs. Harry Morrow, and Mrs. Anna, of Barab, were also present. The guests were taken to the home of Mrs. Warren, where a happy wedding

Car Imports Fail To Meet Demands
Auckland, N.Z. (CP)—As a result of recent import increases in British cars, Canadian motorists are now understanding that there is such an extent that the British make could scarcely complete under normal conditions. At present there is a long waiting list for all makes, whatever the price.

There are indications that British companies will have to set more competitive rates when the buying runs die if they are to retain their hold on the market. At present about 80 per cent of the new cars sold in New Zealand are British and most of the remainder are Canadian makes.

Dodger-Card Feud Flares Anew as 'Bums' Win Protested Game Which May Mean Flag

By JOE RECHER
Associated Press Staff Writer

Monday July 30, 1934
The day when the National League protest was won—see how bad.

It was that eventful day in the year 1934 at the ancient battle grounds of Ebbets Field that the baseball world was rocked by the protest which the Dodgers-Cards feud had started.

When the smoke cleared, many a Dodger from St. Louis declared he was playing the game under official protest. And he was. They succeeded in getting the game called off the field, and the Cardinals were forced to recall the protest.

But the Dodgers' protest was not a victory. It was a defeat. The Cardinals had won the game, and the protest was a defeat.

What brought about the arrangement and the subsequent protest, was the demand by the Cardinals that the game be played at Ebbets Field, and the Dodgers refused to do so. The Cardinals wanted to play the game at Ebbets Field, and the Dodgers refused to do so.

It was that eventful day in the year 1934 at the ancient battle grounds of Ebbets Field that the baseball world was rocked by the protest which the Dodgers-Cards feud had started.

When the smoke cleared, many a Dodger from St. Louis declared he was playing the game under official protest. And he was. They succeeded in getting the game called off the field, and the Cardinals were forced to recall the protest.

What brought about the arrangement and the subsequent protest, was the demand by the Cardinals that the game be played at Ebbets Field, and the Dodgers refused to do so. The Cardinals wanted to play the game at Ebbets Field, and the Dodgers refused to do so.

Stirling New Roof Ordered For Community Service Building

Stirling (Special).—The regular meeting of the village council was held on Monday night. After a lengthy discussion it was decided to call for tenders for a new roof for the Community Service building. Specifications will call for replacing the roof to the proper pitch providing the work can be completed by the end of August. In this decision council members were supported by R. E. Egan and a telegram from "Lucky Macie," a salesman for repairing leaky roofs.

"It is the same old story,"

commenced Councilor Wills and will spend close to a \$1000 on the roof in the past few years. We have a leaky roof. The job is done before the end of August.

Councilor Bailey thought a repair job might last two or more years and by that time labor and material would probably be more plentiful. The sooner we get a new roof the better," stated Councilor Elliott. "The amount of money spent on a repair job now would more than pay the interest on the cost of a new roof until the pre-

sent demolition or the building is sold off and most of the new roof could be handled without cost to them. They are the only ones who can do this. It was then moved by Councilor Wills that the building be demolished and the new roof be put on. A lengthy discussion also took place. The proposed plans have been approved by Wills. The council will then make necessary arrangements.

Councilor Wills introduced the matter of redecorating the interior of the Community Hall and was authorized to make necessary arrangements.

Marines Are Within Ten Miles of Pinching Off 2,400 Square Miles Of East Java

By STANLEY DWYTON
Batavia, Java, July 23 (AP)—The Dutch army today reported that it had pushed marines moving south from north-coast beaches the last 24 hours to go to pinch off 2,400 square miles of East Java from the rest of Republican Indonesia.

The army in its report said that some 10,000 troops and some 100 tanks and other armor were now in the area. It said that the Dutch forces had advanced southward 20 miles in the last 24 hours, and that they had cut off the third of the way to the Republican capital of Jogjakarta.

But an Indonesian army spokesman declared that the Dutch forces had reached the vicinity of Semarang, 100 miles south of Batavia.

The Dutch announcement said that the army had captured nearly 30 miles south of the city and had taken the port of Lahadron, 100 miles south of Batavia, and had taken the port of Lahadron, 100 miles south of Batavia, and had taken the port of Lahadron, 100 miles south of Batavia.

Dodgers, Cards Rounding Turn, Prepare for Struggle Drive With Wins Over Reds, Giants

"Reds" Newsum Hurts Start-out for Yankees; Senators Whip Tigers 6-1 With Adams Turning Back Indians 5-3

Brooklyn Dodgers and St. Louis Cardinals prepared for their stretch drive for the National League pennant race by registering dominating victories over the floodlights last night, the Cards whipping the Reds at Cincinnati 13-1, while the Dodgers swept New York Giants at St. Louis 10-5.

The fourth place Cards, although still 4-1 games away from the lead, moved to within 1-1/2 games of the Giants and Boston Braves who are virtual rivals for the runner-up spot. The Braves, in splitting with the sixth place Cubs at Chicago, an afternoon doubleheader at St. Paul, moved to within one percentage point of the Giants. The Braves won the opener 2-0 behind the four-hit pitching of E. J. Connor, but lost the Cubs by the same score as Claude Soto's first three hits in his first win of the season. He made his first three hits in his first return to the Cubs about three weeks ago.

In the American League, the Yankees, behind their hot pitching of Bob Newsum, won at Yankee Stadium in a night affair 7-0. The Tigers were beaten by Cleveland in Washington 4-1.

Boston Red Sox slipped Chicago White Sox 5-2 in a late afternoon game. The only league game in the afternoon play at Philadelphia. Athletics safeguarded their place last night by defeating the Cleveland Indians 5-1.

Pittsburgh and Philadelphia in the National League were raised to the top of the league.

Bill Branch registered his fifth win of the campaign by leading his team to a 7-1 victory over seven hits in the Brooklyn Dodgers game. The Dodgers' Everett Lewis, and left fielder for his third consecutive game, hit a home run by Dixie Walker.

The Call Brooklyn has a home run by Dixie Walker. The Call Brooklyn has a home run by Dixie Walker.

In the American League game at Philadelphia, pitcher Bill Dietrich was a victim of his own misfires in an unusual play in the first inning when Cleveland scored all its runs. Harry Edwards hit the second and Dietrich doubled the bid for a lead.

The hurler then picked up the ball for his third out, but he was hit by the first baseman Ferns Fain for a home run.

The ball hit checked in with the error on the second play by overrunning second base, and an attempt to get Edwards.

Winnipeg, July 27 (CP)—Complaints have been heard at various times from editors and reporters that professional associations are too stingy with expense accounts allowed competitors in the Winnipeg Cup matches.

Bill (Winnipeg Tribune) Good is among those strongly urging more liberal expense money for the Manitoba representatives in the fairer-division matches. He even suggests it unfair that the players must eat their own expenses in the Winnipeg Cup matches.

Good says the province should give the players a dinner for their best players for this tourney.

the new picture to win in what is a 1-2-3 story.

Monday night, they held no fear for the inevitable defeat, which they thought would be a close one. They were not wrong, and the result was a 9-0 shutout by the Toronto Hockey Club.

Coach St. Louis switched his line and the result was a highly satisfactory. He removed the line and the result was a highly satisfactory.

Vern Green graced at the arena when he asked him if he could. "I can't," he answered. "I can't," he answered.

A new invention enables a baseball umpire to examine his decisions over the park's loud speaker system. He had a microphone attached to his belt.

At the close of the fourth, Green trotted to the bench, where he sat down. He was talking about the game.

A grocer's clerk offered at baseball and softball parks. He was talking about the game.

Other squads of the Belleville Baseball Association are beginning to raise questions about the game.

They took out on trial time over the weekend and the result was a highly satisfactory.

Wrestling Bout Provide Great Show Says Rabbi

"Toronto, July 23 (CP) — Not all midnighters are bad," says Gordon Crook of Montreal, who said yesterday in tonight's wrestling matches were "entertaining and exciting." But some of the ones that are, he said, are quite all right.

Rabbi Samuels of Holy Trinity church, however, said he is a field, and he said that wrestling matches are "a great show." He said that he is a member of the Holy Trinity church, and he said that he is a member of the Holy Trinity church, and he said that he is a member of the Holy Trinity church.

Boston's Catholic has no particular view on the subject, and Father Martin of St. Michael's College said he would be a member of the Holy Trinity church, and he said that he is a member of the Holy Trinity church, and he said that he is a member of the Holy Trinity church.

But Canon R.D. Woodcock of Christ Church, Toronto, said that he is a member of the Holy Trinity church, and he said that he is a member of the Holy Trinity church, and he said that he is a member of the Holy Trinity church.

The Nascopie
The rugged Canadian north, which has claimed many a life, has claimed for itself a great expedition a century ago when the Franklin party was lost. It was then that the first expedition to supply the Nascopie, with a party as small as any record, a ship in exploration and a party of men, was sent. While the Nascopie has fallen a victim of the north and much of the supplies she was carrying have been lost, the crew and the ship have been rescued and the expedition has returned.

The rescue of the Nascopie, which was claimed for itself a great expedition a century ago when the Franklin party was lost. While the Nascopie has fallen a victim of the north and much of the supplies she was carrying have been lost, the crew and the ship have been rescued and the expedition has returned.

News is that ships that can take the place of the Nascopie will be chartered to carry the expedition. The Nascopie was a small ship, but it was the only one of its kind in the world. It was built for the purpose of carrying a large amount of cargo, and it was the only one of its kind in the world. On Falling Out of Bed
Weekend fatalities include, so we see, a man who was killed in a fall out of his bed. Nowhere, not even in bed is there complete protection against accidents.

The perils of water and the highways are obvious and familiar. But it can be just as fatal to step on a cake of soap in the bathtub as to overturn a canoe, and it can fall down the stairs can kill as certainly as the collision of two automobiles.

You go for a stroll and motor cycle cars one you may not dodge quickly enough. You lounge in a shaded garden and may be watched on the head by a falling branch or a wrench dropped from a passing airplane.

There can be a record by a record by lightning, or brought into violent contact with a polished floor by a skidding rug. The casualties of fortune are strange and of infinite variety.

But nobody worries much about the risks that could happen to him, and that is good for peace of mind. Near Montreal a man and wife, both more than 100 years old, were married on the anniversary of their marriage, and it is interesting to speculate on the dangers which somehow passed them off for a long period, to consider the amount and quality of good fortune which made so remarkable a celebration.

They were married in the city of Montreal, and they were married in the city of Montreal, and they were married in the city of Montreal, and they were married in the city of Montreal, and they were married in the city of Montreal.

Wants Information On Gas Utility

As a gas consumer and a property owner I would like to know some questions regarding the Gas Utility. This has arisen out of the fact that the gas utility has been in the habit of raising the price of gas in a very sudden manner.

HORSE SENSE

By SAM GOLDSON
The Editor

Devry & Puck, I presume, he
wonders why the dam they laid
in this pair was so good.
SOUTH
S 1 1 1
S 2 2 2
S 3 3 3
NORTH
N 1 1 1
N 2 2 2
N 3 3 3

His second hand on our recent
rally, they high cards (one
story) and a short in the
second two shots in clubs. His
fourth partner announced
Bleking 11, why was Alan wrong?
Good. Hearts in bridge work
stacky up to a game contract. It
is not as there would be no
need for an end-of-kind showing
overturning.
The bidding by this pair should
go that.

Well, nowadays know. The north
jump to three spades led with
five tricks in that hand. With
his own seven, south knows of 12
tricks in their own. This is
the final for solid about
suits and kings is a big of four
trumps to get the same information.
When does he refrain from
the cards of the suit?
The answer is definite.
Before a player bids four
trumps he must know of three
trumps in his hand. If he leads 13
in their pair (11 what will
be the trump suit? 12 two
aces and 13 better in his own
hand.
South has learned of 12 tricks
in this pair. He also knows that
his hand does not contain two
aces and a king or better.
To talk about such a king, a
player must hold two aces and
one king or better. Unless he has
them he does not go beyond
it is almost foolproof for anybody
as a field.

WAS HUMANITARIAN

Montreal (CP)—Sam Borak, owner of the Western Kooler Most Market liked dogs so well he housed seven pups in the rear of his shop because "they lived it there better than at home."

Health department officials sympathized—said a clerk, and Borak said a 25¢ fine. Quipped the clerk: "Forget your humanitarian views. I think your dogs like your meat better than they like you."

In one of the closest hurling duels of the season, tall Al Wade Trenton R.C.A.F. righthander bested Gordy Muffitt, Balawa Shoemans sterling flinger at the old Glacade last night to land one pass. Muffitt struck out and even downed and walked a pair. He was particularly good in the clutches and on one or two occasions pitched himself out of what might have been serious

[illegible]

swinging Titus, who passed up a grand chance in the third innings with the bases loaded redeemed himself in the third. He smashed out a hard ground ball through second base and both runners scored. Filpatrick struck out to end the inning.

The lone Bat rally came in the fourth inning. Burt struck out and Watson, Bat, shortstop strode to the plate. Wade tossed him one down the grove and Watson smashed out a terrific home run that went past the centre field fence. The score was 3-0. Watson Aquino fled out and Peacock repped out a neat double to lead

centre field. But that was all. Muffitt promptly grounded out to the rally.

From then on it was a nip-and-tuck affair with the two pitchers backed by sterling fielding sending down the opposition with almost monotonous regularity. Bat for bat, bopper for bopper, the first half of the ninth when the team got runners on second and third base. Watson drew a free ticket but was forced at second by Aquino. From there, Muffitt came through with a ringing single to centre field. Aquino galloped all the way to third base and Muffitt promptly stole second.

Then came the hero's role. He failed to come through and grounded weakly to Wade to end the game.

Spencer, Burr, Muffitt, Watson, and the other players on the bill.

LOVE ICE CREAM
Halifax (CP)—Nova Scotians still hold the title as Canada's greatest ice cream eaters. The Nova Scotia department of agriculture and the Dominion Bureau of Statistics said that in 1945 close to \$1,500,000 worth of the frozen delicacy was consumed in this seaboard province in 12 months. At 1.72 gallons for each of the 600,000-odd men women and children, the highest per capita in the Dominion.

WHEN people are pleased it's natural for them to say "thank-you." But never, apparently, have any car owners been so pleased as those lucky enough to own a 1947 Chevrolet. Their enthusiastic "thank-you" letters stream in from every nook and cranny of the Dominion—from fleet operators and businessmen, from purchasers in every trade and occupation. Gorillas, Hippos Weighty Problems Zoo Keepers Find

By RAY PETERSON

Philadelphia (AP)—The endo-pug situation may seem strictly in the family department, but Philadelphia Zoo officials say it's an equally weighty problem in the animal world.

Getting a 500-pound gorilla or a 10-year-old hippo on the scale is tougher than persuading a steel lady to weigh herself with her boy friend loaded, says Ed M. Patton, the zoo's services manager.

With the two highly watchful creatures these days, his scales are constantly in use, and by various and intricate means, not officials are keeping an accurate check on such inmates as "Rambo" and "Mama." The gorilla had been brought to bear a marked resemblance to the fabulous "Big Five-five."

"Rambo" at 11 is the oldest gorilla in captivity—last weighed in 1960. He weighs 500 pounds, with "Mama" tipping the beam at 410 lbs.

With such dangerous animals as "Rambo" who recently managed to escape his enclosure, zoo officials decided a method of placing a scale outside the gorilla's cage and extending a bar into the cage. When the animal hangs on the bar, the scale automatically records the weight.

Gorillas and hippos require even heavier equipment to be used on the scale on which it weighs incoming cool and hay. Weighing animals is not another headache for caretakers. Besides the equipment aspect, it's a little more than a nuisance to have a scale in another large, harnessed animal is considerably easier to

weigh, says Charles McGroarty, an employee.

"You pick him up, step on the scale, deduct your own weight from the total and the difference is the animal's poucentage."

Dangerous species are placed in a tag and weighed alone on the scale, which may range from a fifteen-ton to a five-ton scale, depending on the variety of animal. It gets in on the weighing process, too, on scales varying from the postage type for baby owls, caracaras and other small species, up to larger scales for gorillas and other heavy birds.

Regardless of who they may be, the animal kingdom, every newcomer is weighed upon arrival, usually within the crate in which it is shipped. The weight device is cranked after the animal has been caged.

The zoo's first hippo, "Rafiki," was weighed a decade ago when Dr. Herbert "Rafiki" Hattis, under a series of autopsies and studies that demonstrated failure of the cause of zoo animals' deaths.

He then began an intensive study into malnutrition in animals, and his research findings played an important part, and resulted in weight weight readings started when one kept in a regular diet, and the zoo's first hippo, "Rafiki," was weighed a decade ago when Dr. Herbert "Rafiki" Hattis, under a series of autopsies and studies that demonstrated failure of the cause of zoo animals' deaths.

Flying Immigrants Will be Landed In Ontario

London, July 30 (AP)—Hon. Donald Porter, Ontario Minister of Housing and Development, said today new arrangements for flying Ontario-bound refugees and grants have been worked out between Trans-Canada Air Lines and the Ontario government.

He said the new arrangements would comply with all available regulations. He said he saw Reconstruction Minister James D. Stewart this morning and had been assured no further delay would be likely in that respect. The Reconstruction Minister has just arrived from Ottawa.

Yesterday's Civil Aviation Ministry spokesman said here that the Ministry felt the Trans-Canada flights planned by the Ontario government would tend to become scheduled and therefore would not contravene the civil aviation act. He said, however, earlier reports that the flights had been made by the more imminent.

"As far as numbers and other details are concerned, the Ontario government is actually planning," Porter said today. He added he had not full details of the C.A.A. arrangements.

Originally it had been intended that Trans-Canada flights for immigrants at Buffalo, N.Y., from Ontario by bus.

Silence of Parliament Chambers

Lush and Wonderful to Staff Man

By DOUGLAS BROS Canadian Press Staff Writer

Ottawa, July 29 (CP)—If you know enough of the background, you'll never hear anything as loud as this silence in the temple of talk—Parliament.

This consists of exposing yourself in the temple until the bare knowledge that as soon as you talk, man like sits down another will die, becomes a mental fear for both public and progressivity.

In its advanced stages—normally reached after exposure to 3,000,000 or more words—it penetrates the ranks of the talking men themselves, so that they choke their fellows with such confidence as, "For heaven's sake, haven't you got a home?"

The talking men, chiefly the members of the Commons, are also the strange bodies of attention. And the temple of talk is willing to accept the strange bodies of attention. A mighty manticism hangs over all the men in the green court.

HE BROUGHT IN BOTTLES Lanes, Sussex, July 29 (CP)—The House of Commons today offered £100 (400) for every bottle of wine or liquor found in the House of Commons. The offer was made by the Conservative Party, which has been in power since the last election.

WIN A \$5.00 PRIZE

And Get Acquainted with Your Local Businessmen

Here's something new and different. The merchants advertising on this page are co-operating in a contest which gives its readers an opportunity of winning a weekly prize of \$5.00. Here's how you win: Each week in one of the advertisements, a word will be "Scrambled." Read the advertisements, find the scrambled word, unscramble it, and send it with the name of the advertiser in whose ad it appeared to the "Contest Editor," Ontario Intelligence, Box 190, Belleville. All answers must be in by the **THURSDAY** following publication, and winner will be announced the next week in the Business Directory. The winner will be drawn from among the correct answers, and a cheque for \$5.00 mailed promptly. No member of the staff of the Ontario Intelligence or their families are eligible for a prize.

Frontenac Hog Producers Protest Subsidy Cut-Off

Kingsport, Ont., July 28 — (CP) — Frontenac hog producers Saturday threatened to discontinue hog production if grain subsidies paid the southern farmer by the Federal government are discontinued. A formal letter of protest has been sent to Prime Minister Macleod, Minister of Agriculture James Cowan and Lt. Col. T. A. Kidd, Federal member for Kingsport.

76-Year-Old Jeweller Captured After Attempt To Kill Family

Maplewood, N.J., July 28 — (AP) — A 76-year-old retired jeweller, who threatened himself in the cell of his home after shooting his son to death and critically wounding his wife and daughter-in-law, was captured yesterday in a gun and tear gas battle, police said. Frederick F. Dieter, Sr., in a statement, described how he attempted to kill his entire family and planned to take his own life, after brooding over the construction of an apartment house next to his 30-year-old home.

BUT CALL DOCTOR

Too much sun and excessive exposure to sunlight can cause sunstroke. When sunstroke is indicated the sufferer should be kept cool but when heat exhaustion is indicated the patient should be kept warm in both cases a doctor should be called.

Looking Ahead in Ottawa

(By The Ottawa Staff of The Canadian Press)

Ottawa, July 28 (CP) — Legal quarters in the government are talking about the possibility of a Dominion-Provincial conference of law officers, some time in the distant future, some time in the nearby future.

The code, seriously outdated in many of its sections due to the increased tempo of living and other developments in the years it was drawn up, is badly in need of revision, a task which may take many months once it is started.

Suggestions that the code be brought up to date were made at the recent session of parliament while study was being given

to amendments but Justice Minister Flavel said the job could not be undertaken because of any one government because of divided jurisdiction within the code itself.

It would be necessary, said Mr. Flavel, for the Dominion and the provinces to get together on a revision because the code sets out the various fields of jurisdiction for the Dominion and the provinces in the various classifications of law.

It is expected to be a month or so before any announcement is made of the personnel of the five-man board that will supervise use of more than \$100,000 available for a benevolent fund for army veterans of the second war.

Names of the unsalaried members of the permanent staff are expected to be announced in

time by Veterans Minister MacKenzie now on a visit to his Vancouver centre riding. They will include representatives of the Canadian Legion and the National Council of Veterans Organizations.

The fund, recommended by a special Commons' committee, will correspond roughly to those already established for veterans of the other two services and their dependents. With outright lump-sum, the money — it came from wartime canteen profits, sale of kitchen disposals and the like — will be used for something like the next 30 years to aid veterans who happen to need financial aid for various compassionate reasons.

The amount for all three services is roughly \$13,000,000, more than three times that on hand after the First World War.

Requires Minister James Glen reports himself feeling "very

fine" that his conscience from a heavy illness has advanced to a stage where he can be up and around his summer home in riding Mountain West. In his own province of Manitoba, to a letter to his office, he said his only regret was that he could not yet play golf. Meanwhile, parliament bill

permeate in rumors that he will be bringing to the Senate and Reconstruction Minister. How will take over the Mines and Resources portfolio on a permanent basis. Cabinet colleague of Mr. Howe may be already has an immediate trend group on the inside and out of the department.

Charge of Theft Laid Against Windsor Men

Windsor, July 28 — (CP) — Charged with theft of more than \$130,000 W. Alton Mars, and the M. Lord, both of Windsor were remanded for one week by Justice K. A. Macneil yesterday.

The men were arrested yesterday, Mr. Mars in Detroit, where he served extradition and Mr. Lord at his home. Bail was set at \$10,000 for Mars, which was not, and \$25,000 for Lord, which was not.

Lord's home, worth \$110,000 according to him, was refused as bail.

Termed "a far-reaching" by securities commission officials in Toronto, the charges were laid jointly against the men for the theft of \$40,723.80 from the Lake Mining Company Ltd.

They were both charged, but separately for alleged illegal disposal of some 2,000,000 shares of the Lake Mining Company. Lord was charged with three offences under the Securities Act as well as additional charges of \$40,000 and \$40,000.

From Toronto came a report that the investigations resulted from the complaint of a shareholder in Port Huron, Michigan, saying that he could not obtain information from the Lake Mining Company.

77 MORE JAM OR JELLY

When you use CERTO Results are sure

CERTO, the tried-and-true fruit preserver, allows you to make up to ONE-HALF MORE jam or jelly from your fruit. It takes about one-third of the time needed for old-fashioned long-boil recipes and considerably less work. You can be sure of good results.

1 SHORT BOIL.—Certo jams need only a one-half-hour boil, rolling boil. Certo made jellies a half-boil to a minute. Old-time recipes take about three times as long.

2 50% MORE JAM OR JELLY.—The Certo boil is so short that very little juice can go off in steam. In long-boil recipes you lose one-third or more of your juice this way.

3 NATURAL TASTE AND COLOUR.—Certo jams and jellies are retained in Certo jars and jellies because the fruit is so short to boil the fresh fruit taste and color is retained.

4 NO GUESSWORK. Look for the book of Tested Recipes under the label of every bottle of Certo. Follow exactly the recipe for the particular fruit you are using and you need fear no failures.

Hand Cuffs Unsuitable to Deal With Criminals Say London Younger Police

By GEORFFREY CHAMBERS

London, July 25 (Reuters).—London's younger policemen today think handcuffs are unsuitable and inadequate instruments to deal with violent criminals.

There are no statistics to prove that post-war criminals are bigger and tougher than before, but the policemen are so adamant that they have put their case to the British Police Council and the home office. These authorities are considering possible reforms of police uniforms and equipment.

Visiting American tourists say London's traditional "bobby" is "wonderful." But British police are not armed with revolvers, and even a sure of Hollywood glamour can't make the poor "bobby" forget that he carries only a 15-foot truncheon, similar to the American police stick rigid, but perfect.

Even the truncheon may be used only under intense provocation, and if the truncheon cracks a skull, it all has to be justified in court.

Headcuts and truncheons are not only causes for complaint. After years of collars and ties, servicemen returning to police service were not eager to disappear once more into tunics with high "chocker" collars and tight-fitting kiln-dried park.

leather belts. The authorities when reminded that police uniforms had not changed since 1914, demagogically put the question to the vote. Over 50,000 metropolitan and provincial "bobbies" showed through the ballot box that collars was sacred, and now only the inevitable leather bottle-neck and controversy over the most suitable type of headgear is holding up reform.

The high, domed "custodian" helmet, named after the famous British statesman Sir Robert Peel who established London's metropolitan police force in 1829, was abolished in previous wartime age and replaced by a flat, peaked cap.

Tradition, however, dies hard with the London "bobby." He is on the whole, unwilling to part with his beloved whiff, apart from giving up an air of authority, makes a man look taller and posesses the possible impact of a blackcap.

FATALITY INQUIRY IN FALL THROUGH HATCHES

Moscow, July 25 (CP).—Ovina Morin, 37-year-old longshoreman, died in hospital here last night shortly after his sufferer of a fractured skull when he fell through a hatch aboard the ship "Chester" while working on the high "chocker" collars and tight-fitting kiln-dried park.

Look what's new in the Goodwin's garden!

Mr. Goodwin's shiny new aluminum wheelbarrow is the envy of the neighbours. Junior is as proud as a peacock of his miniature version, Mr. Goodwin dotes on her new aluminum trowel... and her smart new garden chairs, sitting so invitingly in the shade. Yes, aluminum is a natural in the garden—so light to handle, so perennially rustproof, so enduring. Little wonder it is finding a lot of interesting new uses—in rakes and brooms, lawnmowers and ladders... Little wonder the Goodwin's neighbours are determined that from now on their garden tools are going to be aluminum, too.

Where does Aluminum come from?

Its basic raw materials are imported: Bauxite from British Guiana, Cryolite from Greenland, Fluorspar from Newfoundland. Canada makes use of her waterpower and manpower to turn them into Aluminum—uses up no natural resources of her own. All these "ingredients" are brought together at Arvida, Quebec, home of the largest aluminum-producing plant in the world.

"FOREST FIRE" after a painting by J. M. Hanes

All through the summer, Canada's fire-fighters wage a continual, tedious war against the forest fire—destroyer of priceless timber and wildlife, transmuting beautiful recreational areas into charred, forbidding wastelands. Far more effective than the fire-fighter in preserving our forest wealth is the vacationer who prevents forest fires by observing the few simple rules of fire prevention.

* With a camp that takes so long to mature, it is important that it be not injured or destroyed by fire. A large proportion of our Canadian forests are softwood or coniferous forests which are particularly susceptible to destruction by fire.

* An except from CONSERVATION and FOREST FIRE PREVENTION in Canada by James Hanes, one of a series of pamphlets published by The Carling Conservation Club.

THE CAMPER—a Conservationist Campers can do more than any other group to prevent forest fires. Carry in the selection of the site for a camp fire and keeping it under control until it is extinguished is the most important responsibility of the camper.

Irgunists Assert British Sergeants Hanged in Reprisal

Government Sources Unable To Confirm Slaying Story

By EDWARD GIBBS

Through the Helsinki Jewish quarter last night resulted in the deaths of nine persons.

It was during the night of Wednesday July 23 that had been a forest near Helsinki in reprisal for the execution of three British sergeants today.

Thirteen after the "communist" was killed from Tel Aviv, a police source reported that the bodies of the two soldiers had been hanged.

Police press agency reported that British police headquarters had confirmed that the British military and police comb-out of the German zone of occupation and the Jewish quarter of the city of Tel Aviv—where the Jewish military police were stationed—had been hanged in reprisal for the execution of three British sergeants today.

The official government source, however, were not immediately able to confirm that the British military and police comb-out of the German zone of occupation and the Jewish quarter of the city of Tel Aviv—where the Jewish military police were stationed—had been hanged in reprisal for the execution of three British sergeants today.

13 ARE KILLED BY EXPLOSION IN BEAUTY SHOP

Injured in Blast In Harrisburg, Va., Cause Of Blast Unknown

Harrisburg, Va., July 30 (AP)—At least thirteen persons were killed yesterday when an explosion ripped a beauty shop apart and blew away a portion of an adjoining jewelry store in the central business section of this Shenandoah Valley town.

Thirty persons were admitted to hospital and 25 remained for treatment.

As firemen and police fought with other workers many of them were injured. In closing their way through concrete and steel debris, other workers were pulled from the wreckage and an emergency morgue was set up at the blast site.

Not all the victims have been identified. At least one man was killed.

The owner of the shop, Mrs. Pauline Sullivan, escaped injury when she left the shop a few hours after the explosion.

A line of the women appearing in the shop was broken by the explosion.

Derelict glass windows, getting a permanent wave at a shop nearby, were blown out by the blast.

The blast was felt four miles away, and a number of windows were broken in the city.

Police are working on the explosion, and a number of windows were broken in the city.

Economic Crisis Reported Causing Change in Policy

Miners Will Be Asked To Boost Coal Production

London, July 30 (CP)—A Socialist source said Prime Minister Attlee told British legislators today that Britain would slash her military commitments in Germany, Italy and Greece as a result of a change in the economic policy.

Attlee earlier when a virtual non-event, confidence in the Labour government was shaken.

The Socialist source, however, said that the Prime Minister's personal policy would be to "complete the nationalization of the coal industry."

Other cabinet members are not expected to make any statement on the subject.

Mayor Follwell and G. Scott Watch as President Ralph Lett Turns First Sod

Another flag on the industrial history of the city of Belleville was flown yesterday when the first sod of the (American) Optical Company, Canada, Ltd., new plant was turned on the recently-acquired site at the corner of Yennema and West Bridge streets. Pictured here are Mayor Frank Follwell, and Mr. Gilbert B. Scott, manager of the Belleville plant of the company. In the background (top) are seen the hundreds of plant employees and citizens who attended the ceremony. — (Clamp picture on page 11.)

First Sod of American Optical Co. New Plant Turned by President W. Ralph Lett and Manager G. Scott

Many City and Industrial Officials Attend Ceremony

With the golden shovels reflecting the brilliant colors of "Old Glory" and a symphonie space dug deep into the lush grass on the new site of the American Optical Company, Canada, Ltd., at the corner of Yennema and West Bridge streets on Wednesday afternoon, Mayor W. Ralph Lett, President of the Canadian subsidiary of the parent firm, the American Optical Company of Southbridge, Massachusetts, turned the first sod, the cheers of hundreds of company employees, civic and industrial dignitaries, representatives of city and county business and industry, were almost drowned out by the rousing acclamation of a huge multitude as it rippled through heavily-sodded ground to officially start work on the new site.

The new plant of the Irish division of the company is expected to be in full operation by the end of 1948. It will cover approximately 17,000 square feet and will replace with its modern construction the old, quaint present Canadian factory which has been in production here for the past quarter of a century.

At the end of the ceremony, Mayor Follwell presented President Lett with the spade and the shovel used in the turning of the sod. Mr. Scott, who will be in charge of the new Belleville factory, presented the Mayor with the spade from the new Belleville factory.

15 MEN INJURED, THREE SERIOUSLY AT BARN RAISING

Structure Collapses On Chayton Fisher's Farm, Tweed, During High Wind

Tweed, Ont. (Special)—Fifteen men were injured, bruised and shaken, three of them seriously, when they climbed to the ground following the collapse of a new barn being erected on the property of Chayton Fisher, farmer residing four miles south of this village last yesterday afternoon.

Amidst much noise and confusion, the injured men were taken to Belleville hospital. Most seriously hurt was Harvey Barry Coulter, who fell heavily on his shoulder and who at first was believed to have suffered a broken arm. Ralph Kingston, Queensbury, sustained a broken arm and a broken leg. John Johnston, who is believed to have suffered a fractured leg, was taken to Belleville hospital. Other injured in the crash were Louis Holmes, Carl Balam, Burton Coulter, Jack Smith, Fred Langston, Ray Phillips, Laurin Kennedy and William Doolin of Thornbury.

The barn was being erected from material from building secured by Fisher in Queensbury. Construction was under the supervision of a Queensbury construction man named Franklin.

High winds rippled through the building structure as the men were placed in the building. The weight of the men and the weight of the structure was too much for the building.

Two more men were injured on the barn raising. One man was injured on the barn raising. One man was injured on the barn raising.

Lincoln Papers Unsealed

The name of Lincoln is a charm that

The Rollins Reunion Picnic was held in the Township Hall, Ivanhoe, on July 23. It was the occasion of the 100th anniversary of the Rollins' family settlement in Canada. Approximately 123 descendants sat down to a bountiful dinner, following which the gathering was addressed by the president, Hugh MacMillan. Mrs. Will French presented the prizes as follows:

Youngest baby — Judith, Ann Holmes, age 2 1/2 months.
Oldest lady — Mrs. Tom Rollins

Sr. 87 years of age.
 Oldest gentleman — S. B. Rollins
 — 87 years.
 — R. B. Laid and groom, — Mr.
 and Mrs. Wesley Murray.
 Largest family present — Mr.
 and Mrs. Jim MacMillan.
 Person from longest distance —
 Mr. Frank Ferguson, Ingersoll.
 — Mr. and Mrs. J. J. Taylor, who
 read and adopted. The treasurer's
 report showed a substantial balance.
 Mr. Harper Rollins voiced re-
 gret at the want of last picnic week
 not being able to be present.
 Officers.
 The following are the officers for
 1946:
 Hon. President — S. B. Rollins.
 President — Wm. Woods.
 Vice President — Klymer Rol-
 lins.
 Treasurer — Mrs. W. French.
 Secretary — Mrs. Geo. Wil-
 liams.

Executive of Joe Rollins, Mrs. Percy Rollins, Betty Lucas, Jim Hart, Rollins, Jim Lucas, Jim Jeffrey, Don Campbell, Malcolm MacMillan, Carl Rollins.

It was moved by Elmer Post, assisted by Harry Rollins, that 100 copies of the Family Tree be printed for next picnic.

The new president, William Woods, then took charge of the meeting. One minute's silence was held for the departed Rollins descendants since last picnic.

Little Miss Dickens contributed a piano solo. Messrs. Hugh and Albert MacMillan sang a song.

Pictures of the Rollins were taken and several visited the old homestead.

Children's Races.

A sports program of races followed.

Girls 6-8 — Betty Lucas, Jane Dickens.

Girls 9-10 — Katha Horaback,

'A Happy Match' Says Engagement Gave U.K. Lift

By JAMES MCCOOK
(Canadian From Staff Writer)

London, July 31.—(CP)—
Auburn-haired first Leah Manning, long active in the Labor movement and now member of parliament for Spelling, a working class district, says Britain was given a "mental lift" by the engagement of Princess Elizabeth and Lord Philip Mountbatten.

"I have a romantic heart," she therefore I have always been anxious that Princess Elizabeth should marry someone she loved and not be forced into marrying for political reasons."

of an atomic research unit in Canada during the war.

"My husband made no friends in Canada and although visited Canada only once, when he had a scholarship from the English Speaking Union in 1926, am determined to go back some day," Mrs. Manning said.

During the Spanish Civil War Mrs. Manning, now middle-aged, visited the United Kingdom as secretary of the Spanish Medical Aid Committee and personally arranged for the evacuation of 4,000 Basque children from war areas.

She visited all the United Kingdom as organizing secretary for the National Union of Teachers, of which she became president, and was headmistress of the Open Air School at Cambridge.

IMPORT REIDERS
BACHELOR FLEA

Cape Town, July 21.—(Cape Argus.)—Bachelors in Capetown are advertised at the flow of unmarried immigrants to South Africa as a result of the shortage of marriageable young women in the Cape may become even more acute.

One bachelor in a letter to the press, has suggested that authorities re-introduce the practice of the Cape government, which imported wives for settlers— schemes that met with remarkable success.

An ample supply of fresh fruit and vegetables is to be provided for variety for menus at the home for the average Canadian housewife. The Canadian Press showed last week that the home for the average Canadian in preparing the appealing meals prepared on her budget can cope with steadily rising prices.

The Canada-wide survey showed that while certain delicacies such as salmon, trout, and scallops, were still scarce, the situation for most other fish was not so dire. The average Canadian housewife's per-capita status and on the whole is higher than in 1946.

Prices for many vegetables have resulted in a definite improvement in the quality of the produce. Canned fruits, such as apples, syrups, canned fruits, blueberries, peaches and other items that were scarce in 1946 are now plentiful.

Seafood is still remains the household worry for the average housewife. She must make a continuous effort to keep her fish supply queue up in the larger stores for the best quality. The situation is serious, is certainly monotonous.

Dearth of oils and fats is the reason for the high prices. The situation also in the production of solid oils.

Generally the fresh fruit and vegetable situation is much better. The quality is better, the quantity and prices.

Ontario points. There is a good supply of canned foods but the prices are generally higher than last year.

In Ontario all foods, except meat in some sections, are more plentiful than last year with prices up. Blueberries and raspberries are reported plentiful.

Suva, Fiji — (CP) — The recent grant of \$46,000 to Fiji for malaria control brings to \$380,000 the total spent by Britain in the campaign against the malaria-carrying mosquito in the Pacific Islands, so far free from the scourge.

Goodwill towards the Princess appeared to be universal, irrespective of political persuasion. "Everyone in the United Kingdom knows that members of the Royal Family are good people," said one person; "a 'good job' that there must be few who fail to feel satisfaction that she has made a happy marriage."

Rapped Krumpholtz.

Fellow members of parliament took on Mrs. Manning as far more modestly. "The Princess Manning is a briskly determined member who sometimes flies in the face of her own party. At the Labor party conference she was one of those who felt married women could be lured back to factories by the prospect of a 'good job' when nurses for their children had not been provided."

Tuna Fishermen in B. C. Bring Home Catches Worth Up to \$7,500

By PAUL HUMBER
(Canadian Press Staff Writer)
Vancouver, July 21.—(CP)—Accounts of fairly-tale bonanzas to be had in a new Canadian industry are being told by tuna fishermen who ply the rich waters current off the west coast of Vancouver Island and farther home catches worth up to \$7,500 after only 10 days on the Pacific.

An unusually United States schooner sailed a few years ago, once fishing was the herring fishery. Columbia fishermen with prices up to \$400 a ton.

Stuffed catch of the current season was landed aboard the trawler, Roanoke III, owned and skippered by Capt. Norman Hall of Vancouver, who Monday night took the schooner to a steamer in the town of Vancouver, the United States' main tuna port.

Formerly the only fishing grounds of this 10-pound fish were daily catches, whose meat was sold in California, Mexico and Central America.

Recently however, the fish, in-

cluding yellowfin, skipjack and salmon varieties, have been moved steadily north and this year the catch is up to 100 tons. C. waters of one type — the bludgeoned tuna — is one of the three methods used in the fishery. The average catch of skipper varies from 90 to 130 tons in the season. The fish is carried up to 300 tons, lost out live but packed.

When the school of tuna get a taste of the fish, they are a little bit of a fishery mapping at every-thing. The fish are the best of the fish, and the fish are the best of the fish.

The season price was set at \$100 a ton, and the fish are the best of the fish. The fish are the best of the fish, and the fish are the best of the fish.

The fish are the best of the fish, and the fish are the best of the fish. The fish are the best of the fish, and the fish are the best of the fish.

Apple Crop Down 18 P.C. from 1946

Ottawa, July 21 (CP)—Early estimates of Canadian fruit crops for 1947 show tree fruit crops somewhat lighter than last year but berry and grape output heavier, the Dominion Bureau of Statistics reported.

The apple crop—currently estimated at 12,000,000 bushels—20 per cent smaller than the 15,000,000 bushels harvested last year, but the crop is well above the average for the 10-year period 1936-1945 which is 13,611,000 bushels.

The peach crop is down 25 per cent from last season, with 1,500,000 bushels estimated. The sharp drop was registered in Ontario with a 25 per cent decrease. The Ontario cherry crop is dropped sharply from the 1946 harvest of 184,000 bushels to this year's estimate of 150,000 bushels.

A substantial gain was recorded in estimates of the strawberry crop which are 25,000,000 bushels compared to 17,412,000 last year. The grape production for 1947 is expected to be slightly heavier than in 1946, the crop being estimated at 1,000,000 bushels compared with 872,000 bushels.

The Ontario crop is estimated at 1,000,000 bushels, but the British Columbia crop is expected to be 1,000,000 bushels, but the British Columbia crop is expected to be 1,000,000 bushels.

Plan to Integrate More Closely All Tourist Agencies

Ottawa, July 21 (CP)—A second Dominion-Provincial conference to discuss the Canadian industry will be held in Ottawa, Sept. 20 to Oct. 2, Trade Minister Macdonald announced yesterday.

The conference will review and discuss the results of the 1942 tourist season and set the groundwork of a co-operative program for the whole industry in 1946.

Mr. Macdonald said it was intended that the operations of all agencies active in the travel field should become even more closely integrated than at present, and plans designed to bring about that end would be discussed in discussion.

The conference is expected to bring together tourist representatives of the provincial governments, transportation officials, heads of the National Parks Bureau and the National Travel Association of the Canadian Association of Tourist Agencies.

Increase in Price Of Fuel Oil Cuts "Serious Situation"

Montreal, July 21 (CP)—The increase in the price of fuel oil for industrial purposes estimated by reliable sources to have been about 50 per cent in some cases over a six-month period has caused an "extremely serious situation" in the production of steel and other Hamilton manufacturing concerns, it was learned here yesterday. Other sources were somewhat more conservative in their estimation of the increase set at 35 per cent.

Reason for the sharp advance was said to be the shortage of oil supplies.

Hamilton firms indicated possible curtailment in production next winter when oil shipments by boat will have ceased.
